

CLUSTER UNIVERSITY SRINAGAR

Question Paper pattern with regard to Term End Examination for four year Degree Programme in Engineering and Technology (session 2017)

Total Units:	Four	Marks per Unit:	25
		Total Marks:	100

Question paper shall have following three Sections containing questions of three types

Section - A

06 long answer type questions out of which candidate shall be asked to attempt four only. 14 marks shall be awarded to each question.

(14x4 = 56 marks)

Section – B

06 problem solving type questions out of which candidate shall be asked to attempt four only. 07 marks shall be awarded for each question.

(7X4 = 28 marks)

Section - C

08 objective type questions selecting two questions from each Unit. Two marks shall be awarded for each objective type question.

(2X8 = 16 marks)

Note: For the first two sections of the question paper (containing long and problem solving type questions) 04 questions shall be based on four different units of the syllabus. The additional two questions in the two sections shall be set in such a manner so that all the four units of syllabus are covered. If the additional two questions in long answer type question section are from units I and II the additional two questions in the problem solving question section shall be from Unit III and IV.
